

UNTANGLE NG FIREWALL

SIMPLY POWERFUL NETWORK SECURITY

Untangle NG Firewall simplifies network security with a single, modular software platform designed to fit the evolving needs of your organization. NG Firewall provides a browser-based, responsive and intuitive interface enabling you to quickly gain visibility into the traffic on the network. From content filtering to advanced threat protection, VPN connectivity to application-based shaping for bandwidth optimization, NG Firewall delivers a bulletproof network security platform for organizations in any industry.

COMPREHENSIVE SECURITY AT THE GATEWAY

Proactively stop malware, hacking attempts, phishing schemes and other threats before they reach users' devices.

NEXT-GENERATION FILTERING

Get a handle on every rogue application, encrypted web request, malware distribution point, drive-by malvertising attempt, and rash of spam.

DEEP ANALYSIS AND INSIGHTS

Gain valuable insights from database-driven reports without the need for a separate appliance. See the network status at a glance on the dashboard, ensure compliance with full event logs, and get notifications of threats, anomalies or unusual user behavior with alert rules.

SUPERIOR CONNECTIVITY & PERFORMANCE

Meet the challenges of a remote workforce, branch offices and guest Wi-Fi. Keep users and data safe regardless of location or level of access. Balance competing priorities, ensure Quality of Service (QoS), and maximize uptime.

WHY UNTANGLE?

SOFTWARE IS MORE FLEXIBLE

- Deploy on your hardware or ours; virtualized or in the cloud.

OPEN SOURCE IS MORE SECURE

- Our Linux-based, open source platform stands up to the scrutiny of developers worldwide.

MODULAR IS MORE COST-EFFECTIVE

- Get the NG Firewall platform and free apps at no cost, then add the paid apps you need. Enjoy a free, 14-day trial of all paid features.

UNTANGLE NETWORK SECURITY FRAMEWORK

The way we work is evolving. Businesses have adapted to new cloud-based technologies and applications that have increased employee efficiency and provided a scalable pathway to continued business growth. Work teams, now comprised of employees working in headquarter offices, remotely, or branch offices, have become spread across increasingly large distances. While businesses realize a range of important benefits in this transformative era, managing these dispersed networks and their connected devices can bring new challenges of cost, complexity, and control.

Command Center

NG Firewall

SD-WAN Router

The Untangle Network Security Framework, comprised of our award-winning NG Firewall, Untangle SD-WAN Router, and centralized management platform, Command Center, is a comprehensive approach to network security orchestration. This framework offers a suite of cloud-managed security and connectivity options that work together to fit the needs of small-to-medium businesses and distributed enterprises. This integrated approach provides IT teams with the ability to ensure protection, monitoring and control across devices, applications, and events, enforcing a consistent security posture over the entire digital attack surface. Untangle puts IT back in control of dispersed networks, hybrid cloud environments, and IoT and mobile devices.

ADVANCED SECURITY

- Protection, encryption, control & visibility anywhere
- NG Firewall, IPS, VPN & more
- Onboard security for small network appliances & IoT devices
- Full security processing on-premises or in the cloud

INTELLIGENT SD-WAN

- Secure, WAN-optimized connectivity for every location
- Seamless scalability
- Patent-pending Predictive Routing™ technology for first packet, dynamic path selection
- Manage one or many appliances from Command Center

CLOUD MANAGEMENT AT SCALE

- Zero touch deployment
- Configure & push policies
- Advanced alerting & reporting
- Visibility across globally dispersed networks & endpoints

MANAGED SERVICE PROVIDERS

Use Untangle Command Center to seamlessly manage multiple NG Firewall and SD-WAN Router deployments remotely through a single pane of glass for simplified security orchestration.

Contact our sales team to learn more about how Untangle can benefit your organization.

NG FIREWALL APPS

The NG Firewall platform is powered by security applications that work seamlessly together to give you everything you need to protect, monitor and control network traffic. Untangle's browser-based, responsive and intuitive interface enables you to quickly and easily add apps and apply rules within minutes. Try every app for free for 14 days and prove the effectiveness for yourself.

Application	Description
Protect	
 Firewall [†]	Safeguard your network from the Internet, providing control by IP address, protocol and port.
 Intrusion Prevention [†]	Stop exploits before they enter the network.
 Phish Blocker [†]	Protect unsuspecting, click-happy users from identity theft attempts.
 Virus Blocker [*]	Block viruses at the gateway before they reach the computer.
Filter	
 Ad Blocker [†]	Eliminate ad and cookie tracking, while improving webpage load times.
 Application Control [*]	Control access to applications, which can be productivity drains and bandwidth hogs.
 Spam Blocker [*]	Block 99.5% of all spam.
 SSL Inspector	Decrypt, scan and re-encrypt HTTPS and SMTP traffic on the fly.
 Web Filter [*]	Block inappropriate content at the gateway before it reaches users.
Perform	
 Bandwidth Control	Manage the priority of business-critical, recreational and inappropriate traffic.
 WAN Balancer	Distribute Internet traffic to optimize QoS over two or more connections.
 WAN Failover	Reroute traffic automatically when one Internet connection fails.
 Web Cache	Streamline and accelerate the Internet browsing experience.
Connect	
 Captive Portal [†]	Easily manage Wi-Fi and guest access to the Internet.
 IPsec VPN	Securely connect multiple sites.
 OpenVPN [†]	Enable site-to-site and client-to-site connections.
 Tunnel VPN [†]	Provide connectivity through encrypted tunnels to remote VPN servers and services.
Manage	
 Directory Connector	Use Microsoft Active Directory or RADIUS to power policy management.
 Policy Manager	Define and manage network privileges based on usernames, groups, time, day or protocol.
 Reports [†]	Drill down into any app or across apps by user, group, time and more.
Add-Ons	
 Branding Manager	Personalize user-facing screens to add company logo, name and contact information.
 Live Support	Receive US-based technical support online and via phone.

^{*}These applications also have a free version.

[†]These applications are included with the NG Firewall platform at no cost.

UNTANGLE APPLIANCES

Plug-and-play Untangle appliances make deployment easy and seamless. Every Untangle appliance is guaranteed to work with NG Firewall software. There is an appliance to fit your needs regardless of the size of your organization. Choose from quiet, small-footprint, desktop models all the way up to 1U rackmount servers for the datacenter.

	z4 / z4w	z6	z12	z20
Recommended Users	10 - 50	50 - 100	100 - 500	500 - 3000

* Wireless specification for z4w model only.

† NGFW throughput is measured with Application Control, IPS, Web Filter, Virus Blocker and Reports.

OTHER DEPLOYMENT OPTIONS

Untangle NG Firewall is engineered for complete flexibility when it comes to deployment options.

- **Your hardware:** install NG Firewall on an Intel-based server with 2 NICs.
- **Virtualized:** leverage the investments you've already made in infrastructure.
- **Public cloud:** flexibility and scale-on-demand for every networking scenario.
