

Untangle SD-WAN Router

Your Network. Your Rules.™

WHY UNTANGLE?

Seamless Scalability

Secure, WAN-optimized connectivity for every location.

Intelligent SD-WAN

Patent-pending Predictive Routing™ technology for first packet, dynamic path selection.

Secure Internet Access

Untangle SD-WAN Router filters out high risk applications, hosts or URL's, and drops traffic that can cause harm to the network.

Untangle SD-WAN Router is a lightweight (small memory footprint, small install size, small physical device) network edge router. It provides the ability to route traffic over a Software Defined Network with key SD-WAN features such as multiple VPN links between sites, policy-based routing, and Dynamic Path Selection based on network conditions.

Branch Office Connectivity

Untangle SD-WAN Router simplifies and reduces the costs of branch office networking. Untangle SD-WAN Router, as a lightweight edge router, is designed for the needs and budgets of small offices.

Business Continuity

Untangle SD-WAN Router ensures that the most important business critical applications are prioritized, and includes flexible and powerful WAN balancing and WAN failover. With multiple WAN ports and optional LTE connectivity, Untangle SD-WAN Router balances network traffic in real-time over multiple Internet paths. Link monitoring and automatic failover eliminate network downtime.

Application Performance & WAN Optimization

Deploying an Untangle SD-WAN Router at a branch office boosts Internet connectivity with traffic shaping and QoS to prioritize business critical traffic. Real-time performance monitoring with WAN balancing improves the performance of existing inexpensive Internet connections to eliminate the need for costly dedicated links such as MPLS.

eSERIES APPLIANCES FOR SD-WAN ROUTER

The Untangle eSeries appliances are lightweight, edge devices designed for branch office connectivity, WAN performance optimization, and business continuity. Featuring multiple WAN interfaces, 802.11ac Wifi and LTE Cellular connectivity, the Untangle eSeries appliances support zero-touch provisioning and remote management via Command Center for seamless network integration into your branch office.
